

Ausbildung Nursing in Germany

"Earn While You Learn"

GERmany awaits you!

The dual system is firmly established in the German education system. Programme combines academic studies with experience in a company and vocational training. Dual study programme are very popular in Germany due to their practical orientation. Programme is training and practice oriented which prepares student for the future working environment.

- Dual Degree / Apprenticeship Program
- Training of the candidate will take place in a Hospital or elderly care center in Germany
- Candidate shall be issued German Government recognized education whereby they will get a general nursing degree by which they can work in any hospital or as nurse specialized in care of senior citizens on completion of this course.
- The program guarantees an employment under the dual training program as recognized nurse (Ausbildung zum Pflegefachmann/-frau)
- The dual training in Germany is planned in 3 – 3.5 years
- High possibilities of Permanent Residency in Germany.

COURSE OUTLINE (THEORETICAL)

The theoretical lessons have a scope of at least 2,100 hours. It is based on an internal school curriculum. The lessons are divided into different topics:

- Planning, organizing, designing, implementing, controlling, and evaluating nursing processes and nursing diagnostics in acute and long-term nursing situations
- Designing communication and advice in a person- and situation-oriented manner
- Designing and helping to shape intra- and interprofessional action in different systemic contexts
- Reflecting on and justifying one's own actions based on laws, regulations and ethical guidelines
- Reflecting on and justifying one's own actions based on scientific knowledge and professional ethical values and attitudes

COURSE OUTLINE (PRACTICAL)

The Practical Training comprises approximately 2,500 hours and is therefore more extensive than the 2,100 hours of instruction at the nursing school. The practical training is carried out on the basis of a training plan that is to be drawn up by the provider of the practical training and is based on the internal curriculum of the nursing school.

The practical training takes place in the medical facility of the provider of the practical training (hospital or nursing facility), but also in other facilities so that the trainees get to know the different areas of nursing. Nursing training therefore takes place at different learning locations.

A1 TO B2 GERMAN LANGUAGE COURSE OUTLINE

COURSE LEVELS	COURSE DESCRIPTION
A1	Understand and use familiar everyday expressions. Able to communicate simple information using basic language structure.
A2	Understand sentences and frequently used expressions and communicate with simple and direct exchange of information. Can describe in simple aspect one's background and immediate environment.
